

**Are you after a cup of premium café style coffee at work?
Did you know that it only costs from \$1.20 a cup?**

Compare that with a cup of coffee from a coffee shop - it would cost at least 2½ times more.

Don't you agree that in these recessional times, the difference translates into massive savings, especially if you drink more than one cup a day?

Snacks R Us Vending in association with Coffee Crave delivers the aroma of premium quality coffee at the touch of a button without the price tag of a coffee shop.

And for every touch of that button, it delivers freshly ground LAVAZZA coffee beans.

Yes, individually ground for EVERY cup of coffee.

Your choice of a cuppa – select from

Short Black | Long Black | Short White | Latte | Cappuccino | Flat White | Mocachino | Hot Chocolate

So why not consider a coffee vending machine in your work place or organisation?

-  Value for money for both staff and visitors.
A thumbs up during a financial downturn.
-  Time savings – no more walking to the café and queuing up for a coffee.
This would also increase staff productivity and efficiency.
-  Ongoing service for staff who are working overtime or weekends.
Our coffee vending machines are on call 24/7.
-  No more mess and no more fuss. No more messy benchtops.
No more having to allocate a staff to stock up the tea room.
-  The coffee machines are always kept fully stocked and cleaned and are serviced weekly or as needed.
Thus, no need for a tea lady or girl Friday.
-  State-of-the-art coffee vending machines from the renowned Saeco brand.
The machines are efficient, attractive and give change.
-  Free coffee vending machine.
Free personalised service.
-  Everyone gets to enjoy delicious, high quality, cafe-style coffee.
Every cup is made with freshly grinded coffee beans.
